

Hana Aliyah Mufidah

Senior Front-End Engineer

+62 858-1099-4772 | mufidah.hanaaliyah@gmail.com | linkedin.com/in/hana-aliyah-mufidah | Yogyakarta, Indonesia (Remote)

SUMMARY

Front-end engineer with 6+ years building responsive, production web apps in React.js, Next.js, and TypeScript. Strong at turning designs into reusable, accessible components, wiring front-ends to REST and RPC backends, and optimizing for performance and cross-browser reliability. AWS and CI/CD background makes backend collaboration frictionless.

CORE COMPETENCIES

React.js

Next.js

TypeScript

JavaScript (ES6+)

HTML5

CSS3

Responsive Design

Reusable UI Components

REST API Integration

Performance Optimization

CI/CD

WORK EXPERIENCE

Nespay Apr 2025 - Jul 2026

Software Developer

- Led the front-end of a B2B payments Backoffice Dashboard in **React.js** and **Next.js**, building the user and admin interfaces.
- Developed reusable UI components for wallet transactions, invoicing, and KYC flows, integrating them with REST and RPC backend services.
- Set up AWS authorization and CI/CD (GitHub Actions to EC2), and ran peer code reviews focused on clean, scalable component code.

ION Feb 2020 - Dec 2024

Full Stack Software Engineer

- Built and maintained work management web apps in **React.js** over five years, collaborating closely with designers on UI/UX.
- Shipped praise and endorsement features with filters, leaderboards, and skill-matched people search, plus the employee time-off system and work timeline.
- Stabilized input component behavior and validation across the whole app, raising cross-browser consistency and reliability.

Ultra Voucher Nov 2018 - Jan 2020

Full Stack Web Developer

- Built dashboard web apps, including a voucher-code generation tool with status tracking and reporting that replaced a manual Excel process.

EDUCATION & CERTIFICATION

AWS Certified Cloud Practitioner - Amazon Web Services Sep 2024

JavaScript Fullstack Immersive Program - Hacktiv8 Nov 2018

B.S. Geophysical Engineering - Bandung Institute of Technology Sep 2015

SKILLS

Front-End: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, responsive design, reusable component architecture, state management, performance optimization

Integration & Tooling: REST APIs, RPC, async programming, Node.js, Nest.js, Git, GitHub Actions (CI/CD), Docker, AWS, end-to-end testing (Nightwatch, Selenium, Mocha)

Languages: English (Professional), Korean (Conversational), Indonesian (Native)
